### Purpose

Jindabyne OSHC has a responsibility to protect the health, safety and wellbeing of each child at all times. While most drowning occurs in backyard swimming pools, it is important to be aware that children can drown in as little as 6cm of water.

### Strategies

- Children will be supervised at all times in and around any body of water.
- A risk assessment will be conducted prior to any excursion taking place. Particular attention will be focused upon water safety where the excursion is near a body of water. Ensure that ratios are adequate enough when around large bodies of water.

### Responsibilities of the Approved Provider

Ensure the service operates in line with the Children Education and Care Services National Law and the Education and Care Services National Regulations.

### Responsibilities of the Nominated Supervisor

- Ensure children are adequately supervised, are not subject to inappropriate discipline, and are protected from harms and hazards (**National Law 166**).
- Provide supervision, guidance and advice to ensure adherence to the policy at all times.
- Ensure risk assessments for excursions planned near water identify a higher staff to child ratio to ensure adequate supervision (**National Regulation 100, 101**).
- Ensure First Aid and CPR qualifications and requirements are met at all times.

## Responsibilities of the Educators

- Embed water safety messages into the children’s education program such as Kids Alive.
- Ensure water troughs or containers for water play are positioned and filled to a safe level and emptied or covered securely after use.
- Empty buckets used for cleaning immediately after use. No cleaning buckets are to be left in areas or accessible to children.
- Discourage children from drinking grey water. Provide clean drinking water at all times.
- Complete a daily Safety Inspection of premises to ensure that all hazards are known and minimised. When a hazard or potential hazard is detected
- Monitor all taps on the premises that children have access to and ensure they are turned off securely when not in use.

## Responsibilities of the Children

Ensure that every child has an adult with them before approaching an area with water.

## Responsibilities of the Families

Reinforce water safety practices with children at home.
